

Ministry of Industry, Investment and Commerce

A conversation with Minister Anthony Hylton

The Ministry of Industry, Investment, and Commerce of Jamaica is the key driver and thought leader for facilitating investments in the country's economy and preparing local businesses and entrepreneurs to take advantage of Jamaica's entry into the global supply chain. Its mandate is to lead in the development of policies that will create growth and jobs, while achiev-

ing social inclusion and consumer protection.

The Ministry, working with its stakeholders, is primarily responsible for business policy development, monitoring, and evaluation, while giving direction and oversight to a cluster of 19 implementing departments and agencies.
