

# Aegis Group of Companies

*The caribbean's leader in outsourcing business services*

Aegis Business Solutions Limited, based in Trinidad and Tobago, is the Caribbean's leading outsourcing and advisory services company. It currently serves several international and local clients throughout Trinidad and Tobago and the Caribbean. Its expertise in the areas of accounting, taxation, corporate secretarial, audit, payroll, human resources, and financial advisory allows it to deliver high performance business outsourcing solutions to many different industries and sectors, including manufacturing, retail, marketing and advertising, government, shipping and transport, energy, telecommunications, construction, hospitality services, technology, media, banking, and insurance.

For professional independence reasons, Aegis was formed in 2001 to acquire the accounting outsourcing portfolio of PricewaterhouseCoopers (PwC). Company founder, Angela Lee Loy, a former partner of PwC, felt that there was a need to aggressively promote accounting outsourcing services within the country. Today, Aegis offers a comprehensive suite of services that allows its clients to focus on their core business, while Aegis manages many of their support functions. The company focuses on foreign companies entering Trinidad and Tobago's market as well as small and medium sized enterprises (SMEs) across the country.
