

way extension, Water and Sewerage Authority water treatment plants, the Twin Towers of the Central Bank of Trinidad and Tobago, the Porsche Service Centre, the Children's Science Park, and the Chaguaramas Boardwalk.

Taking over his father's dream is of the utmost importance to Daniel Ramoutarsingh. "Because of our past, and because of our ambitions for our future, and because of the principal foundations that our founder has left with us, after all this time, we really do care about our customers and our products, and we stand behind our products one hundred percent. We make every product not only to the best we can, but the best anybody can. We never stop trying to improve the way we do things. And we never stop trying to find value for our clients and to give them the very best we can, because this is our country and our region, and we are laying the foundation for it, so we want it to have the

best foundation. We do things that other people don't do. When we do assemblies or installations, without the client telling us, if we know it's not perfect, we do it over."

No doubt, Jack Ramoutarsingh would be proud of how his son has continued the family business and taken over his dream.
