

Paints, one of the world's most renowned brands of paints and coatings. The company's services also include glass and mirror cutting, and rip and cross-cutting of wood.

E.H. Charles & Co. has five locations - the headquarters and retail hardware business are located in Roseau, Dominica. Warehouses and storage depots are at Picard and River Estates. Charles says that he is considering an expansion of the business, but because Dominica is a relatively small island, he wants to be very careful about how he goes about developing the company, further. "The island has a small population and limited resources," he says. "We can't afford to expand beyond the ability that the country can offer."

Meanwhile, E.H. Charles & Co. Ltd. will continue to ably and conscientiously serve its customers, and the Dominican public, as it has done for almost half a cen-

tury. "We give quality service to our clients," Charles declares. "We give them a good product; we find the best product for their uses and we give them good delivery for their projects."
